

Vaccine Fraud Alert – June 13th 2022

Pfizer & Moderna Contain No RNA

Email: kevin@synaptek.jp <https://www.researchgate.net/profile/Kevin-Mccairn>

Recent testing (**SEM/EDX analysis**) on vaccines conducted by Dr. Kevin W. McCairn Ph.D. finds that both Pfizer & Moderna vaccines failed to register elemental signatures for Nitrogen and Phosphorous! Normal mRNA contains significant quantities of Nitrogen which forms Purines ((A)denine, (G)uanine) & Pyrimadines (Uracil, Cytosine), which should be linked to a sugar-phosphate backbone

Using a Hitachi SEM & Bruker EDX Imager, in all samples tested, over 2 days, we found no evidence of mRNA. Lipid content was confirmed by Raman spectroscopy.

We urgently need to be able to pay for more lab time (5 Days = \$5000) No mRNA amounts to serious medical and corporate fraud!

(SEM/EDX) <https://youtu.be/WOWMjQedgc8?t=4674>

(Raman) <https://youtu.be/x3PpfCWC2Ps?t=716> Plz help with research costs \$
